

# DOMESTIC VIOLENCE COUNTS

## the National Census of Domestic Violence Services

### Executive Summary for

# Connecticut

The complexity of the issues is very diverse – the lives we touch on a daily basis. How does one capture the joy of a woman finding a job? How does one capture in one day the numerous systems we interact with, to advocate, to seek change? And how we do that today is different than how it will look tomorrow.”  
-An urban program

On November 2<sup>nd</sup> 2006, 9 out of 18 identified local domestic violence programs (50%) in Connecticut participated in the National Census of Domestic Violence Services (NCDVS). Designed to address the safety and confidentiality needs of victims, the Census collected an unduplicated, non-invasive count of adults and children who received critical services from local domestic violence programs during the 24-hour survey period. Since some local programs did not participate, this Census provides a powerful glimpse but remains an undercount of the actual number of victims who sought and received services.
